

Inspections required

- An inspection of installed tree protection materials is required prior to issuing this permit.
- Periodic, unscheduled inspections will occur throughout the project to ensure compliance with the tree protection requirements.
- A final inspection is required at the end of the project prior to removal of tree protection.
- Contact the natural resources division at 952-924-2699 to schedule an inspection.

Additional information required*

- ☐ Site plan and grading plan showing the location of all buildings, floodplains and trees (existing and proposed).
- ☐ A tree inventory of the site certified by a registered land surveyor, landscape architect, or forester that provides the number, type and size of trees to be preserved and protected throughout construction.
- ☐ A plan for protection of trees intended for preservation that adheres to the tree protection methods and locations as outlined in Section 36-364(k) Tree protection of city code.

*See Section 36-364(j)(2)(b) for more information on tree protection permit requirements.

Permits issued and inspections made by the city are a public service and do not constitute any representation, guarantee or warranty, either implied or expressed, to any person as to the conformance to applicable city codes. The undersigned acknowledges that this application has been read and that the above is correct and agrees to comply with all the ordinances and laws of the City of St. Louis Park regulating fence construction.
