Pavement management project

We want to hear from you!

About the project

Construction of the pavement management project in your area is set to start in 2026. The project includes street reconstruction, drainage repairs, sidewalks and underground utility work. Visit bit.ly/2026-pavement-management to view a map of the streets included in the project.

Now's the time to tell us what you think!

We want to hear from you. Your input will help inform the design of the overall project.

Use the interactive map on the city website or contact city staff with your comments. Visit bit.ly/2026-pavement-management or scan the QR code for a link to the project website.

If you don't have internet access or have other questions, contact Aaron Wiesen, project engineer, at awiesen@stlouisparkmn.gov or 952.924.2673.
